

## Title: Baban Plane Rental

Baban Plane Rental is a platform made to connect plane owners with potential renters. The platform will provide a interface for both parties to search, list, and book private planes for rental.

### STORY 01

As a potential renter,

I want to search and browse for available planes based on various criteria, such as location, type, capacity, range.

### WIREFRAME

### ACCEPTANCE CRITERIA

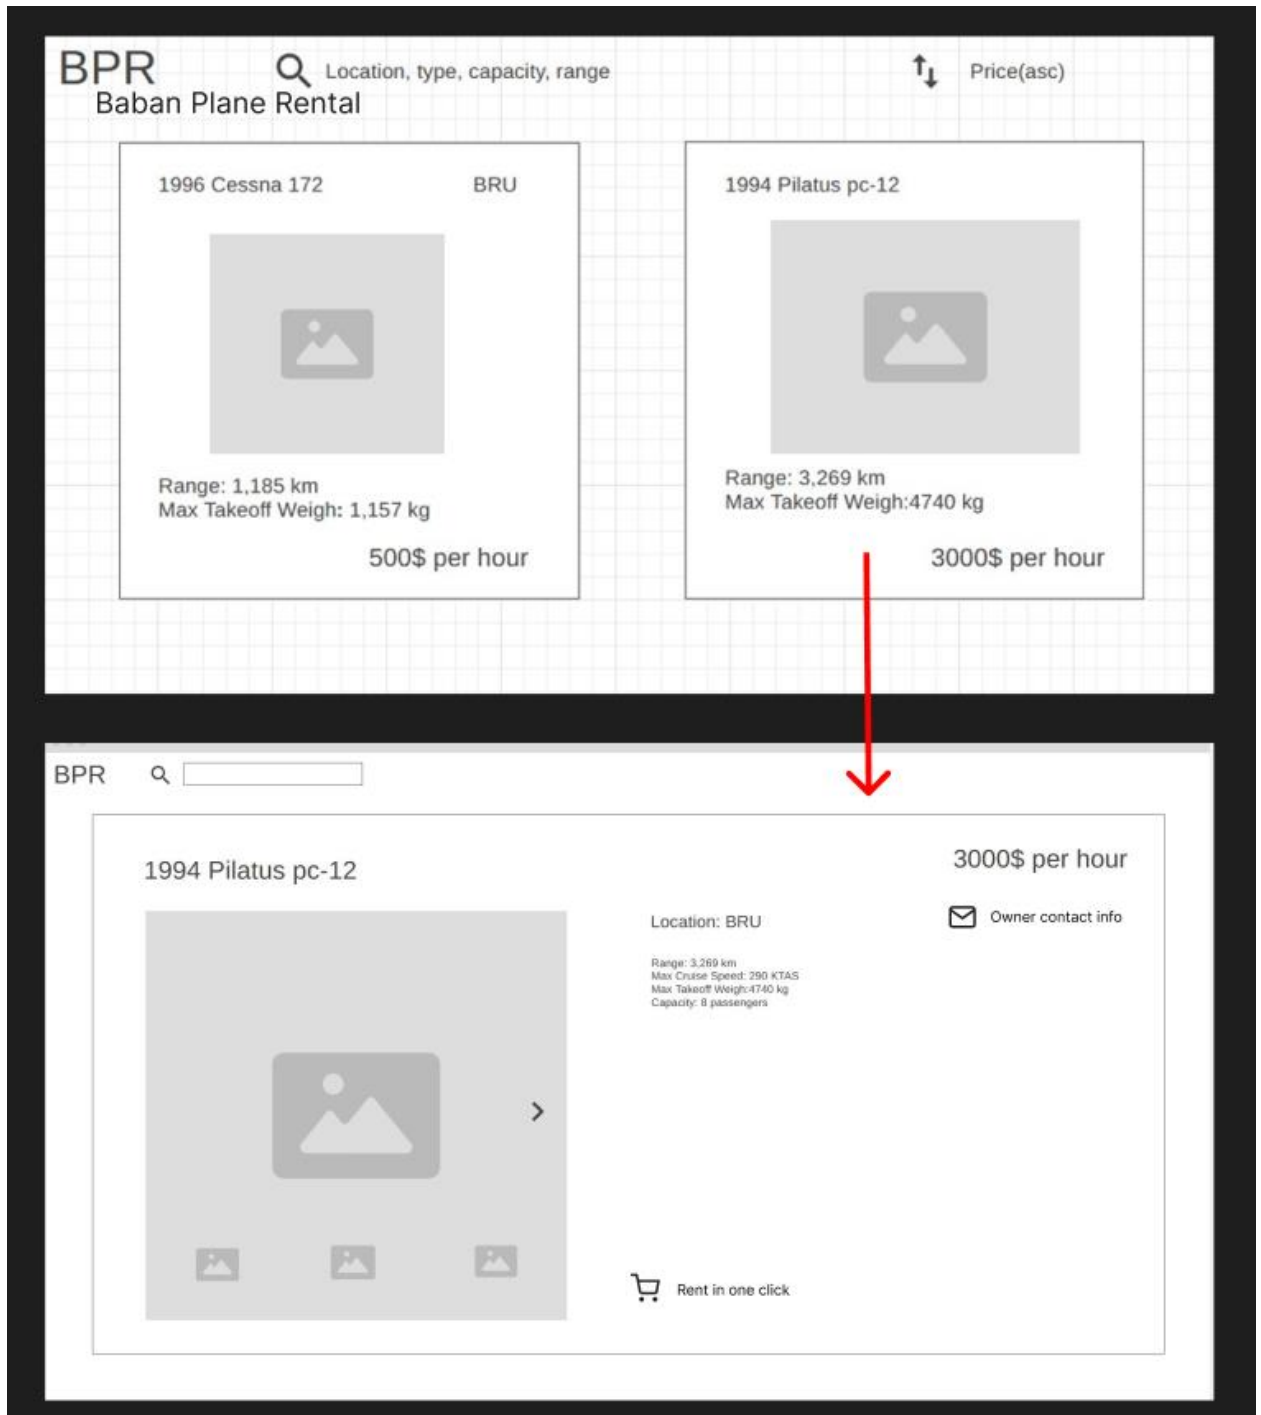

When using search, appropriate result appears.

## STORY 02

As a potential renter,

I want to view detailed information about a plane, including its specifications, photos, availability, and rental rate.

## WIREFRAME

## ACCEPTANCE CRITERIA

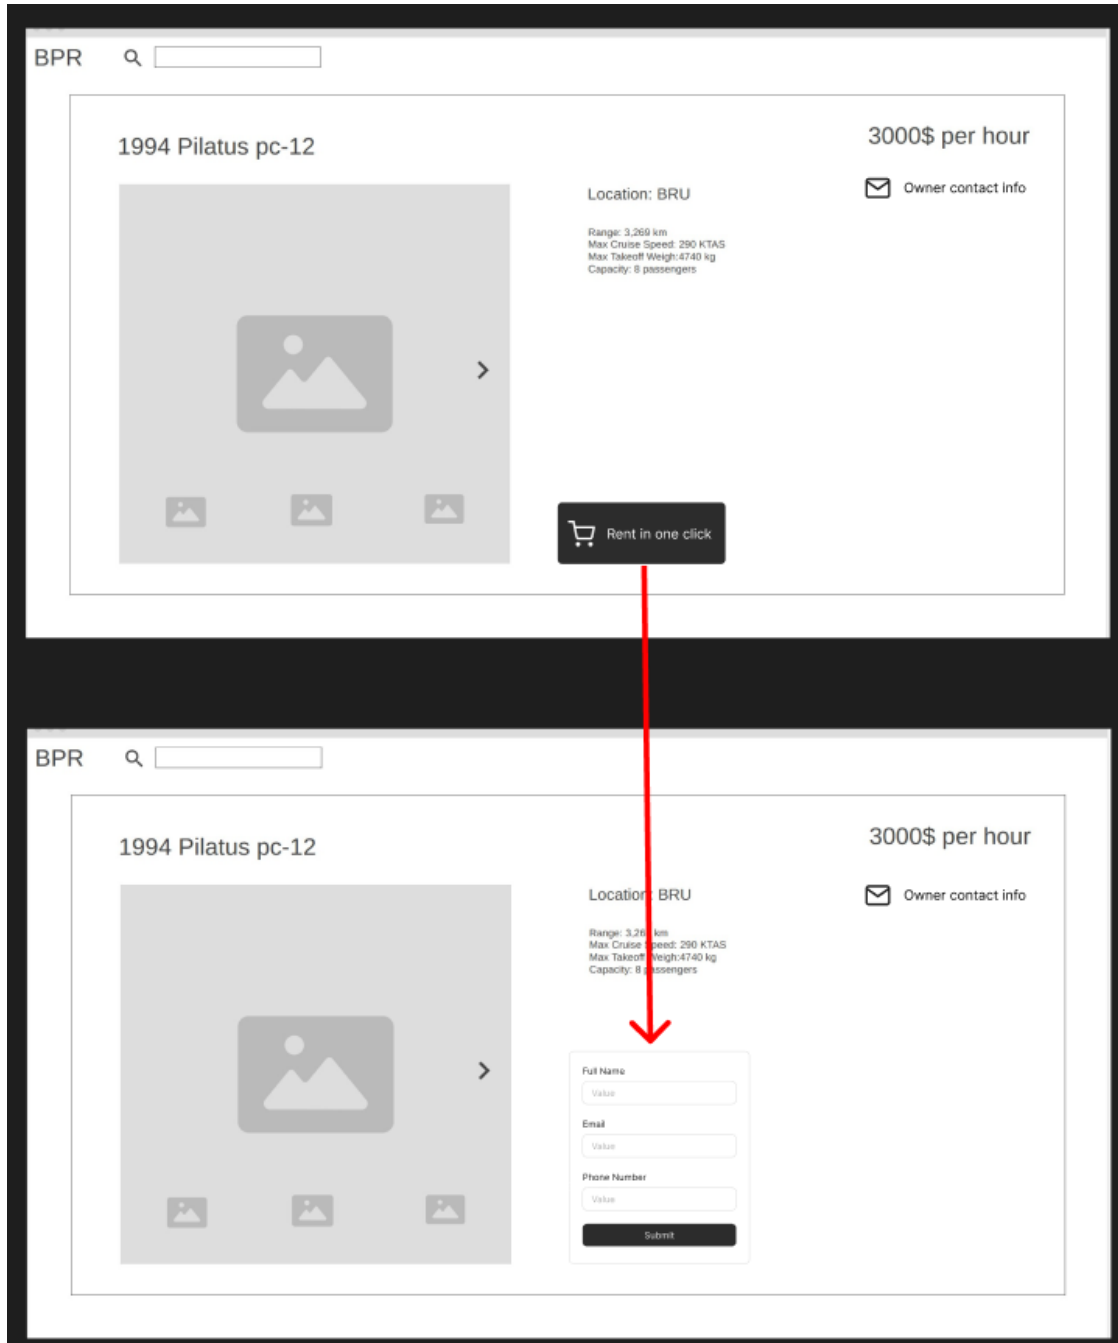

When clicked on an item, detailed version appears where year, model, location, specs, "Rent a plane in one click" and "Contact owner" are displayed.

## USER STORY 03

As a potential renter,

I want to book an available plane directly through the platform.

## WIREFRAME

## ACCEPTANCE CRITERIA

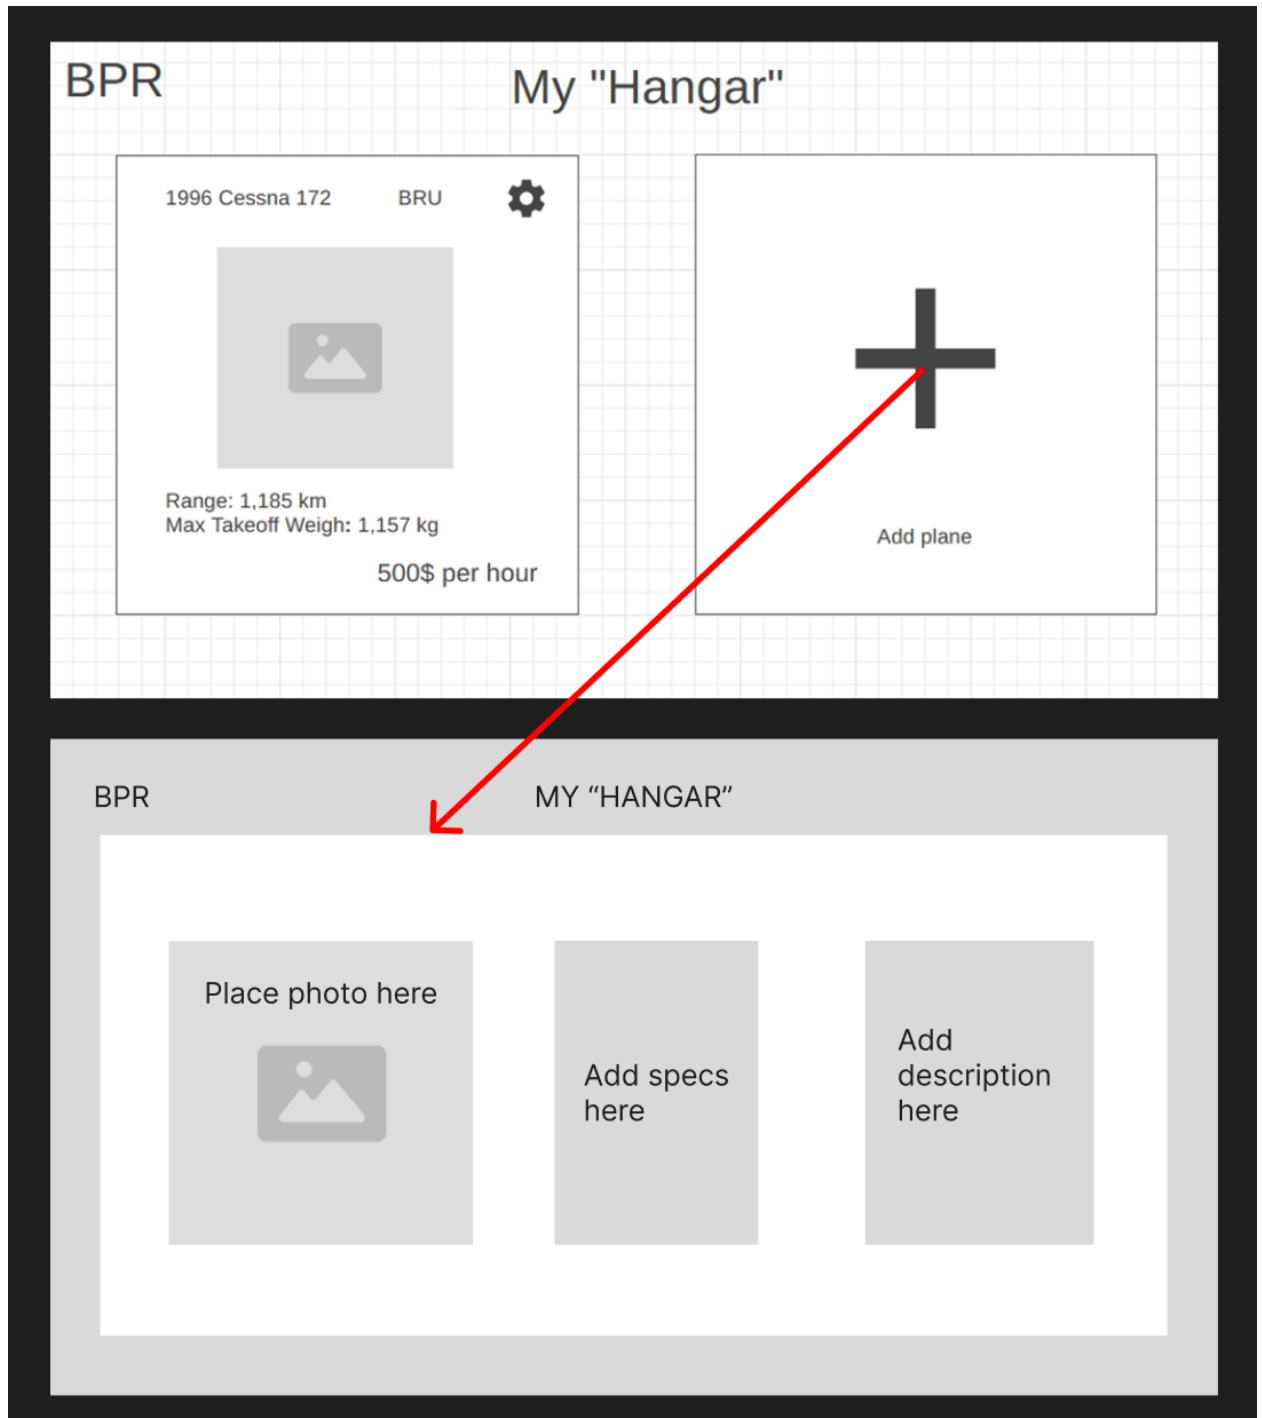

When clicked on “Rent in one click” form appears where potential renter enters his details so manager can contact him.

## USER STORY 04

As a plane owner,

I want to create a detailed listing for my plane, including its specifications, photos, availability, and rental rate.

## WIREFRAME

## ACCEPTANCE CRITERIA

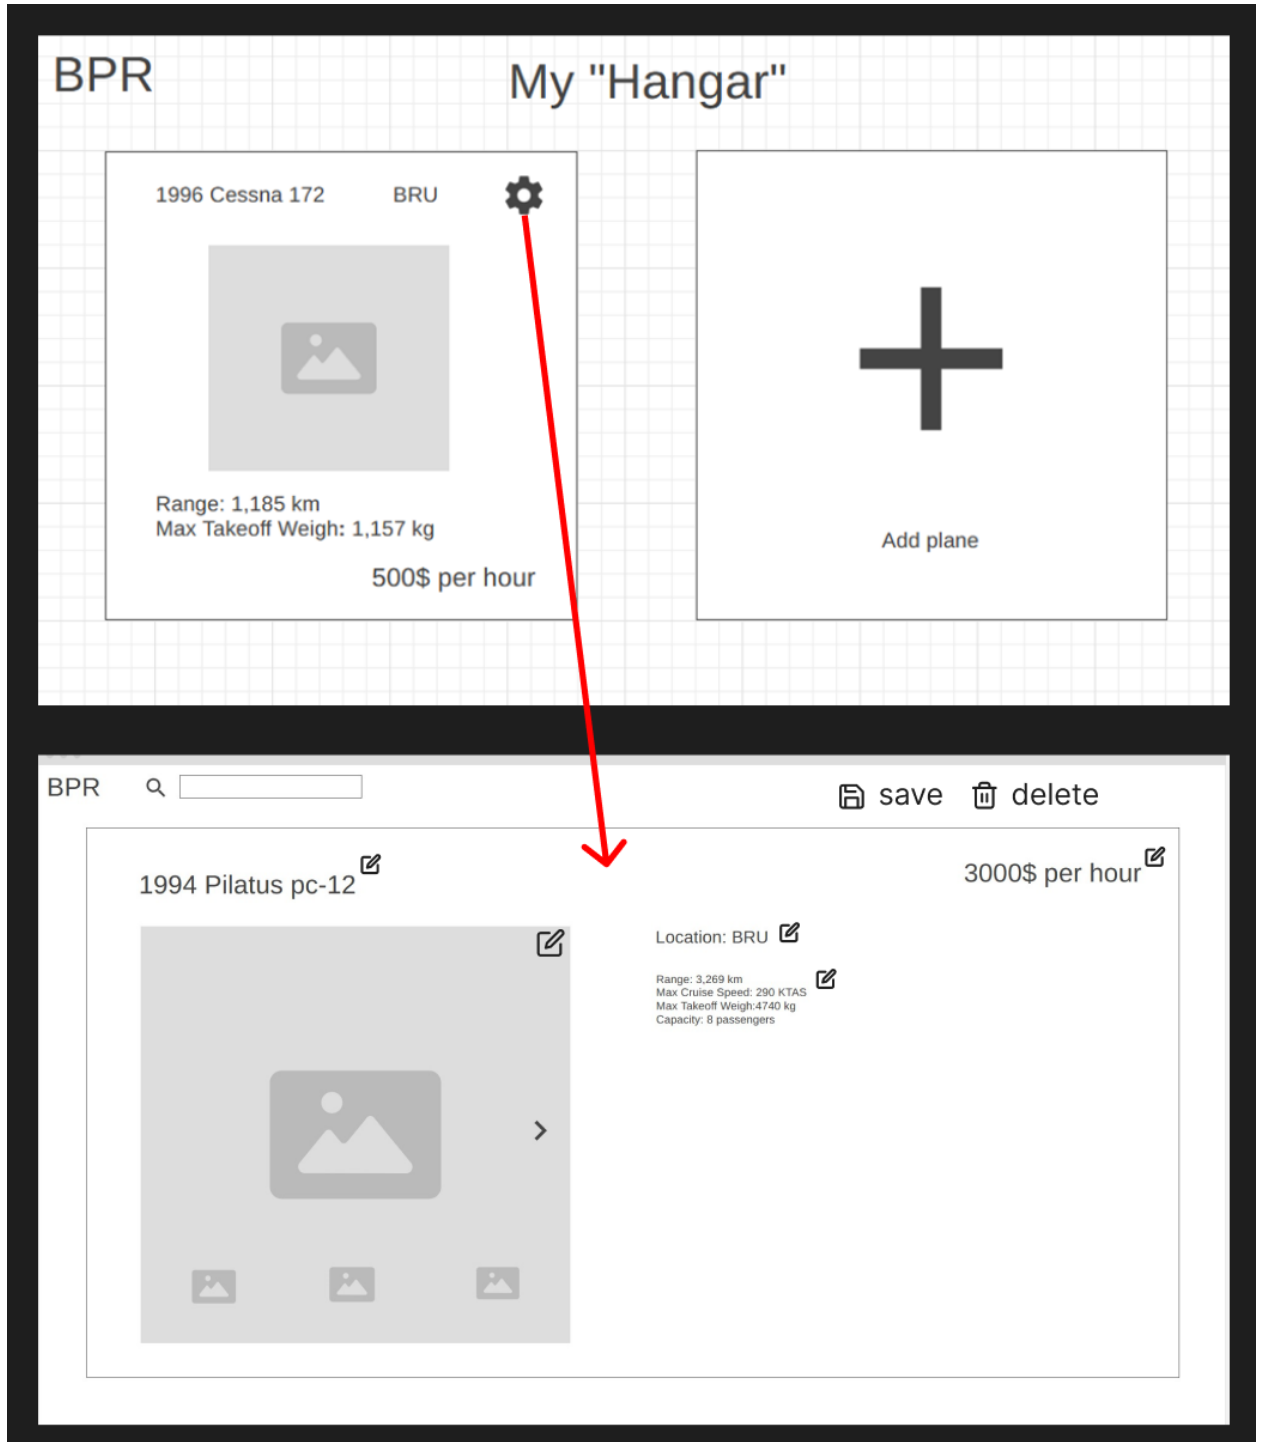

When clicked on "Add my plane" a page to add a plane appears.

## USER STORY 05

As a plane owner,

I want to be able to manage my rental listings, including making changes or removing them.

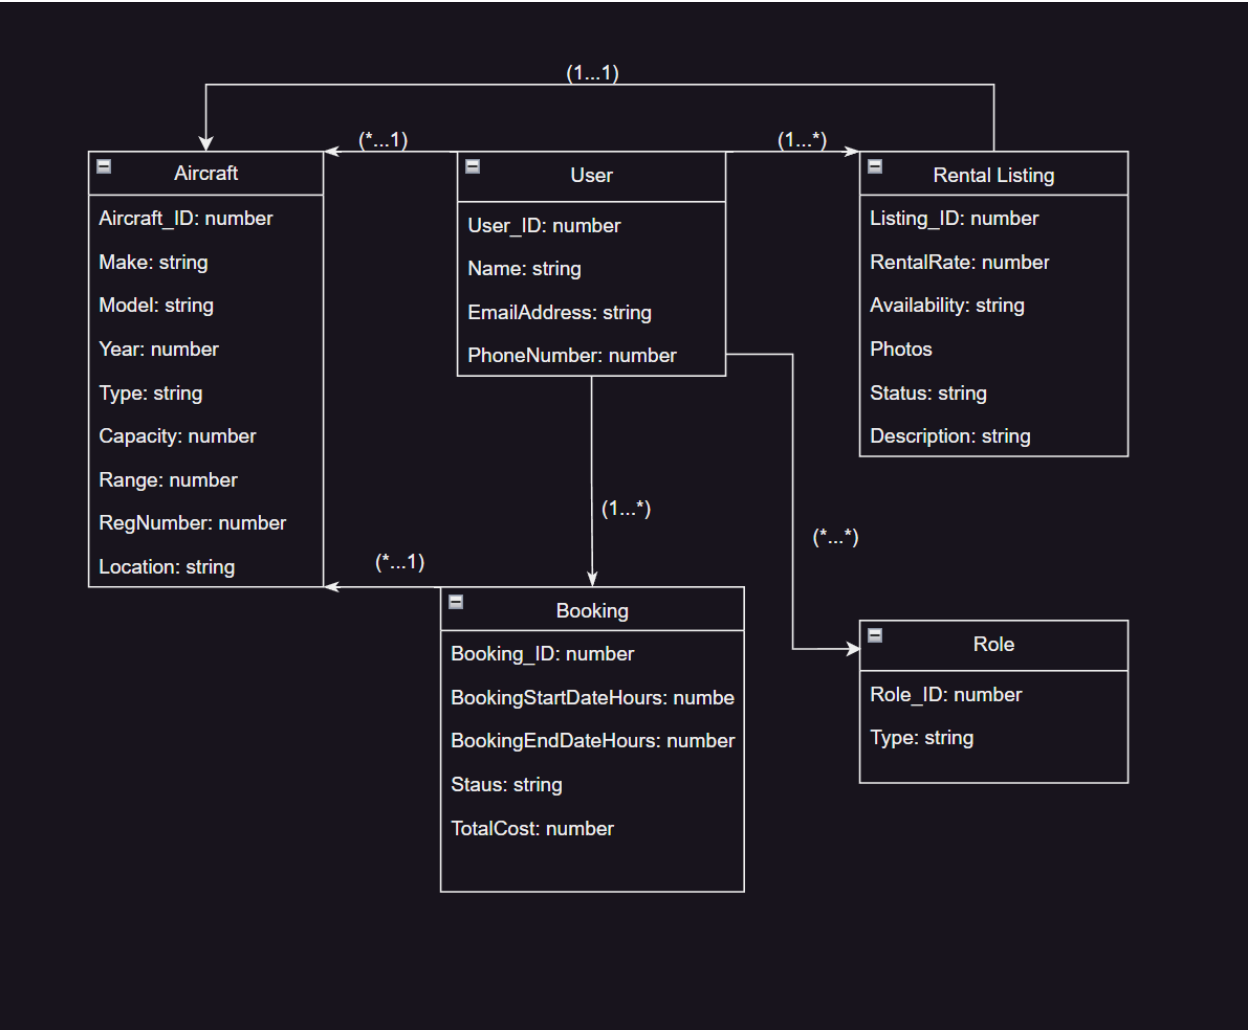

## WIREFRAME

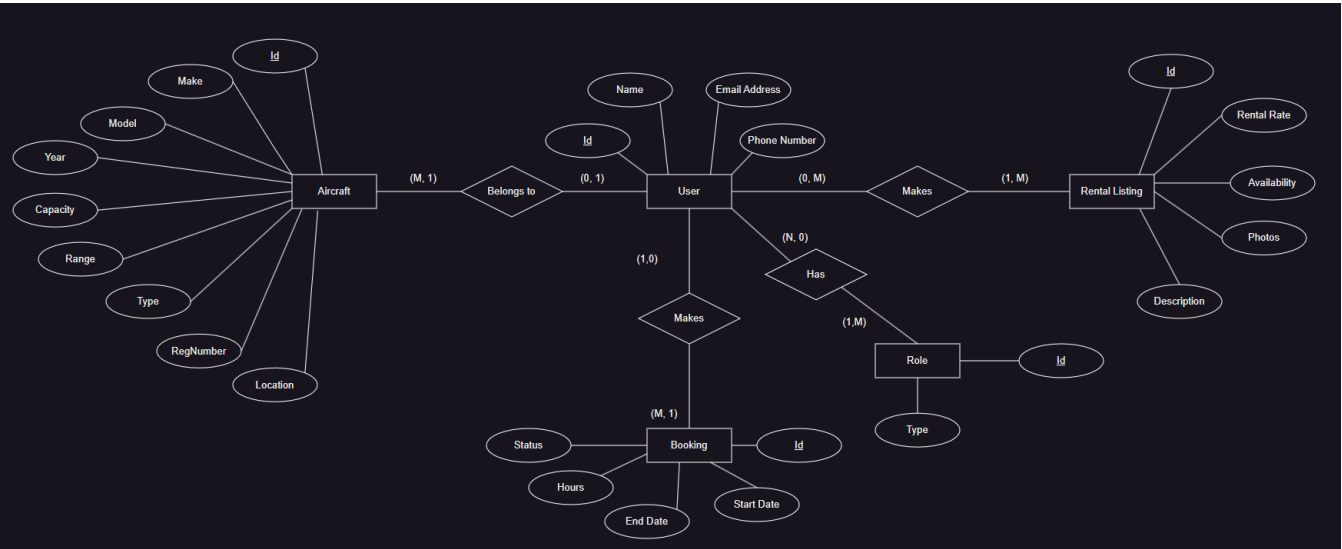

## ACCEPTANCE CRITERIA

When clicked on a setting(edit) icon on the listing, detailed page appears where it is possible to make changes to it, save and delete.
